

Mark Hannam

Chair Re-election Statement

I joined the Board of EPC in April 2022, as the Company was emerging from the challenges of the pandemic. Since then, we have seen significant changes in the demand for workspace, particularly in London, and we have been operating in a difficult economic environment, with high financing costs and falling

commercial property values. As Chair, I have overseen our efforts to reduce debt, to scale back our operating activities, and thereby to return to financial sustainability. At this AGM, I am standing for re-election, to serve for three more years, to help guide the Executive team as they lead the Company back to profitability. I continue to believe that there is an important role for EPC, as a provider of high-quality workspace for charities and social sector organisations, and that the Company can develop a business model that produces both social impact and financial returns on a consistent basis. Thank you for your support.
